Ultimate Bird Control LLC. **BIRD SLIDE®** anti roosting solution

MANUFACTURER

Ultimate Bird Control LLC. Manufactures **BIRD SLIDE®**. **BirdSlide** is a hardened weather resistant plastic polymer barrier that contains ultraviolet stabilizers. It is inert to most chemicals and will not rot, corrode or rust. **BIRD SLIDE®** can be installed on many different sizes of ledges. **BIRD SLIDE®** is designed to include 4 inches of trim area. This will allow you to custom fit **BIRD SLIDE®** according to the width of the ledge. **BIRD SLIDE®** is offered in various lengths and colors. From four-foot lengths to fifty-foot lengths. It is designed to be easily trim able to fit any need. Custom painting in any color is available. The U.V. protected plastic polymer design assists **BIRD SLIDE®** in the fight against the outdoor elements.

- C:** Considered the bottom base of **BIRD SLIDE®**
- D:** Backside for full support of **BIRD SLIDE®**

Narrow Ledge

Medium Ledge

PRODUCT PRESENTATION

BIRD SLIDE® deterrent system is effective against all species of birds to deter them roosting or nesting on backed ledges. Effective on low or high pressure levels of bird situations.

BIRD SLIDE® may be adhered to surfaces using various methods. Adhesive, dry-wall screws, self tapping screws, mounting clips and more. Structure design and composition determine best adhesion method. To be assessed by qualified installer.

BIRDSLIDE® is a permanently installed bird control barrier that provides a long lasting solution to birds nesting or roosting.

The “Slide” acts as both a visual and physical deterrent that makes it impossible for any bird to land upon any protected surface.

It is designed to fit ledges, beams, angle irons, and under eaves, areas of a building structure. **BIRDSLIDE®** can be used to deter a wide variety of architectural bird problems caused by all species of pest birds. It is well suited for low or heavy pressure activity where roosting or nesting birds are known to overpower other products.

PAINTING

BIRDSLIDE® is available in a standard grey or beige and can be custom painted to match any building color. To achieve a quality well camouflaged result when painting **BIRDSLIDE®** preparation is key. You can find more complete description of painting tips by referring to the **BIRDSLIDE®** installation guide provided with your purchase.

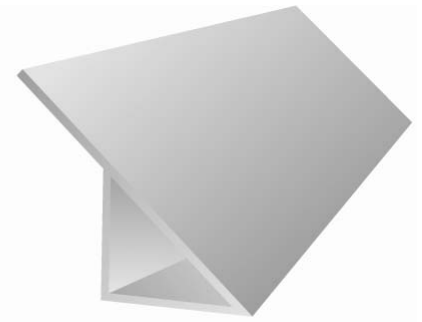

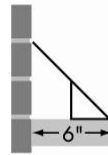

ADHESIVE

For best installation results, we recommend a commercial grade, weather resistant, urethane based adhesive. Please refer to your local pest control distributor company for adhesion suggestions or call technical support department for a list of suggested adhesion methods.

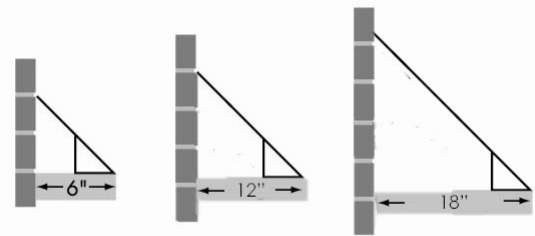

CUSTOM PARTS

For large commercial bird control projects **BIRDSLIDE®** can be pre-ordered in custom sizes and custom colors. To order additional products or parts please contact your local distributor.
